

WALT: Reflect on year 7 and 8's Poetry Topic completed over the last three weeks to identify areas of strength and interest-use pictures and words!

**Poetry Presentations**-after listening to different students read their poems what are some of your thoughts...

After listening to other students read their poetry some of their poems were very meaningful and sad but my words I like was really good. And some other words I like poems that other students presented were good and had a bit of enthusiasm while reading the poem like Lily, Lance, Rohann and Kevin.

During the **Poetry Topic** we listened and viewed a recording of both **The Highway Man** and **Jabberwocky**-comment on the recording you enjoyed the most and say why...

I enjoyed The Highway Man because it had a creepy feel to it because of the man that was reading it and the words that he used were very meaningful and it was long and very descriptive. Although the Jabberwocky was funny and entertaining due to the made up words and the person reading it but The Highway Man was definitely the best.

**Write about some of the Poetic Devices you have used in your poetry writing... and say what effect did these devices had...**

My emotion poem on Anger was good I used meaningful words and I used some onomatopoeia, alliteration and similes. Also at the parent teacher interview when my dad read it he said It was very good and he said I should continue writing poems like that.

**The poem I enjoyed writing the most was? Remember to back up your thoughts with examples...**

My Emotion Poem because it was a bit true because that's how it felt when I was in the war back in my country and I used descriptive words.

I also liked my words I like poems I think my presentation was good
