

We're in the driving seat for our learning.

Our learning is fit for purpose.

Our learning is preparing us for our future not our past.

We collaborate and problem solve

We manage ourselves and our time.

We are resilient.

UNDERSTANDING E - LEARNING

Enabling e-Learning is defining 'e-learning' as learning and teaching that is facilitated by or supported through the appropriate use of information and communication technologies (ICTs)

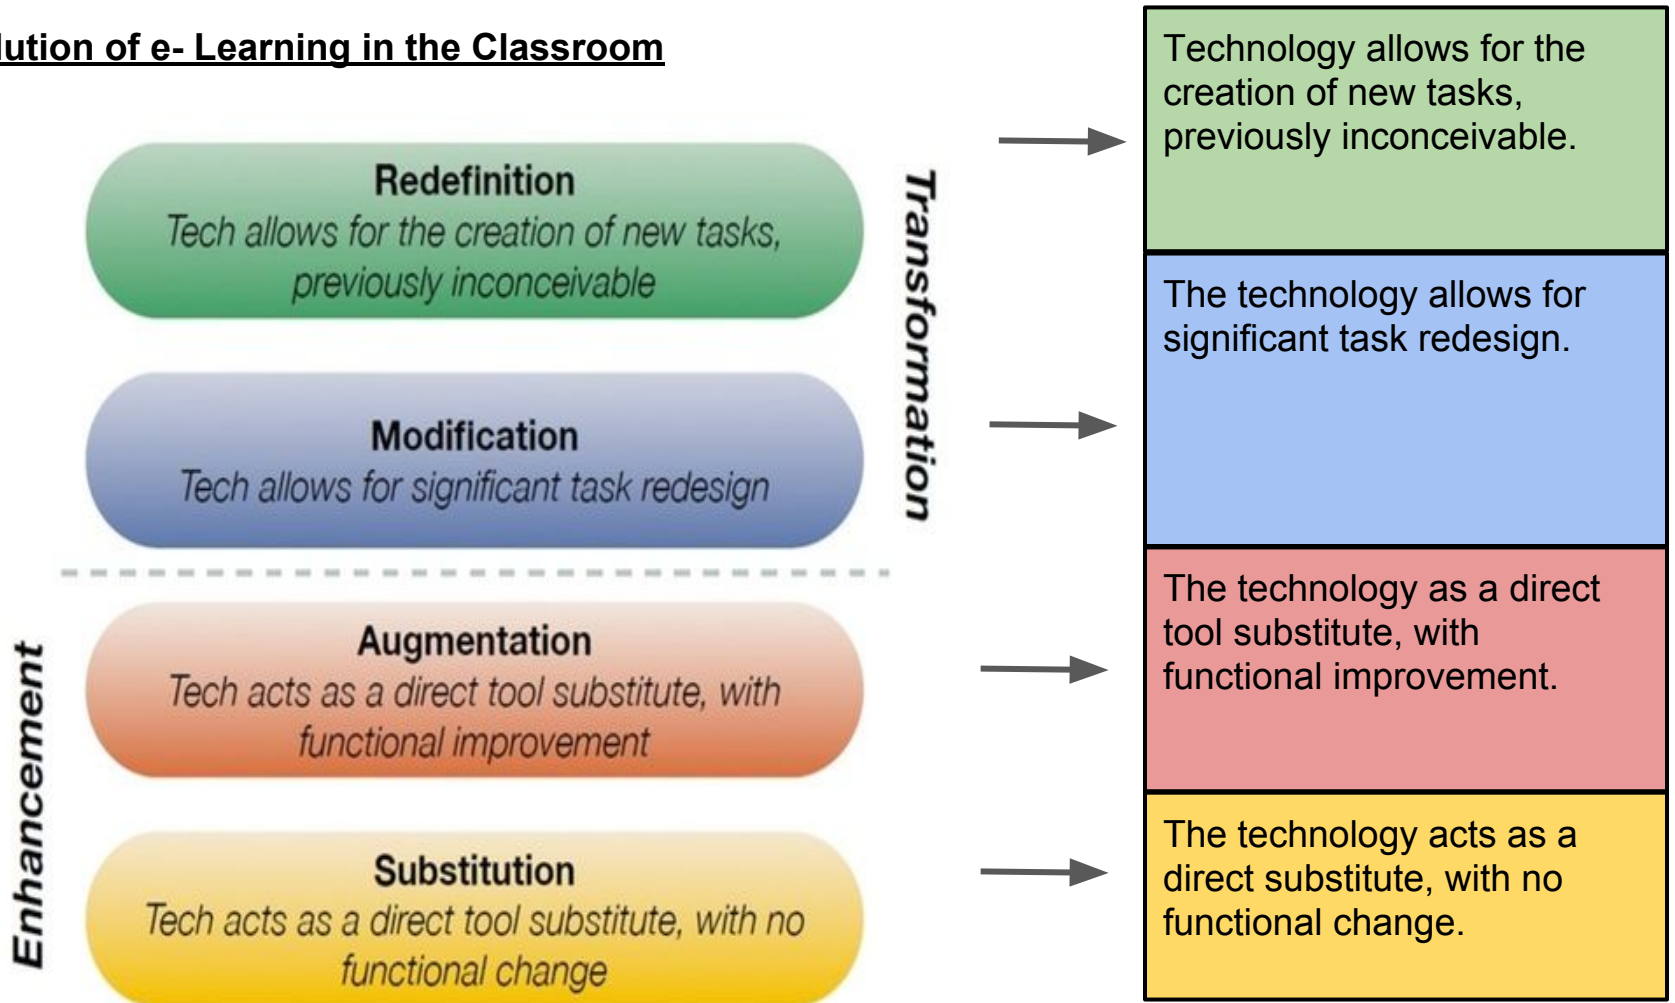

Message to our students from the MOE:

Our children's world is more digital and fast paced than any generation before us. Digital Technologies shape our homes and communities and how we interact with each other and live our everyday lives.

Our education system is changing to better equip us to take part, create and thrive in this fast-evolving digital world.

Evolution of e- Learning in the Classroom

Some Benefits of E - Learning

- **Collaboration** Between teachers, students, families and the wider world.
- **Accessibility** Learning does not finish at school.
- **Innovation and Creativity** Looking at things in new ways.
- **Flexibility** Explore in depth - the sky's the limit!
- **Inquiry Learning** - Encourages student engagement and achievement, Following your passions - becoming excited by the process of learning. Taking charge of your own learning.

E - Learning supports our students to develop their **Learner Agency**

“One way of thinking of learner agency is when learners have the ‘power to act’. When learners move from being passive recipients to being much more active in the learning process, and actively involved in the decisions about the learning, then they have greater agency.”

OVER TO OUR STUDENTS...

In a Nutshell:

Best practice e-learning enables accessible, relevant, and high-quality learning opportunities that improve student engagement and achievement.

E-learning has the potential to transform the way teaching and learning takes place.

It is about using technologies effectively across the curriculum to connect schools and communities and to provide accessible, relevant, and high-quality learning opportunities so that every student is better able to achieve their full potential.

We're in the driving seat for our learning.

Our learning is fit for purpose.

Our learning is preparing us for our future not our past.

We collaborate and problem solve

We manage ourselves and our time.

We are resilient.
